

Dental Herb Ingredient Story

Highly Effective All-Natural Oral Care Products Made with Truly Natural® Ingredients

Dental Herb Company products are precisely formulated to reduce harmful bacteria, control gum inflammation and bleeding, and fight bad breath. They utilize powerful essential oils, organically grown herbal extracts and other highly effective Truly Natural® Ingredients. Designed for daily use, the products create a naturally balanced oral environment to help fight gum disease and promote healthy teeth and gums.

Ingredient	Properties	Clinical Benefits
 Cinnamon Bark	An astringent and a painkiller.	Helps contract, firm and strengthen oral tissue, reduce surface inflammation and irritation, and create a protective barrier from infection; soothes toothaches.
 Eucalyptus	Aromatic, antibacterial, antifungal, antiseptic and stimulating.	Helps boost circulation and speeds the healing process; effective against mouth ulcers and oral infection.
 Lavendar	Aromatic, sedating, antibacterial, anti-inflammatory, antimicrobial, antiseptic and stimulating.	Effective against halitosis, helps heal damaged tissue, provides mouth pain relief and helps calm the nervous system and decrease stress, which is strongly linked to gum disease.
 Peppermint	Antibacterial, anti-inflammatory, antifungal, antimicrobial, antiseptic, sedating and stimulating.	Offers protection from oral infection, and pain relief. Enhances blood circulation.
 Thyme	Antibacterial, anti-inflammatory, antiseptic, and stimulating.	Helps treat oral inflammation and infection.
 Echinacea	Antimicrobial, anti-inflammatory and immunomodulating.	Helps prevent infection, repair damaged tissue and regenerate connective tissue.
 Gotu Kola	Anti-inflammatory and soothing.	Stimulates blood vessel growth in connective tissue. Helps heal wounds.
 Xylitol*	A natural sweetener that has been shown to improve oral health by inhibiting cavity-causing bacteria from sticking to teeth and gums.	Promotes a healthy, balanced oral environment by reducing bacteria adherence as well as moisturizing to reduce dry mouth discomfort.
 Aloe Vera*	Antioxidant, antibacterial and soothing	Reduces harmful oral bacteria and provides relief to inflamed gums by soothing while accelerating the healing process.
