Here's What Dental Professionals Are Saying About Our Products

For more than 15 years, we have heard from the dental health community about how effective our products are. Read on to learn about why Dental Herb Company has achieved a reputation for excellence with the experts.

"The well-known and long-used chemical chlorhexidine gluconate has a well-proven record to reduce periodontal inflammation and encourage gingival health. Also well known are two major side effects: taste reduction and superficial tooth staining. I suggest that chlorhexidine rinse be used as the initiating rinse in conservative periodontal therapy followed by other types of rinses after a few weeks. The product Tooth and Gum Tonic is a potent solution containing essential oils and herbs with proven effectiveness in conservative periodontal therapy."

—Dr. Gordon Christensen, DDS, MSD, PhD

"I have used Tooth & Gums Tonic exclusively with patients for close to 10 years now. They love it, and I love it! Powerful anti-microbial benefits, no staining or tartar formation and better compliance from patients make it #1 in my book. Under the Gums Irrigant and the Tooth & Gums Paste are also favorites of our hygiene providers across the country. If you are still using a chlorhexidine based product, you have got to try Tooth & Gums Tonic. Only the best for our patients; which is why we are such advocates for the all-natural products made by Dental Herb Company."

—Wendy Briggs, RDH

"I do everything I can to take the best impressions possible. I used to have patients rinse with a chlorhexidine regimen to improve tissue quality for large restorative procedures, but patients' compliance was embarrassingly low. I switched to Tooth & Gums Tonic on the recommendation of Dr. Gordon Christensen. Since the implementation of the Tooth & Gums Tonic, my patients are more cooperative and willing to abide by this regime."

—Dr. Michael DiTolla, DDS

"I was tired of using drugs and chemicals to support the treatment and maintenance of my periodontal patients. So, after looking at the research, I replaced 0.12% chlorhexidine gluconate with Tooth and Gum Tonic 10 years ago. It has prescription grade natural ingredients... biocompatible... great taste... kills bacteria... no stain... no alcohol... no preservatives... no brainer!"

—Peter S. Evans, MS, DDS, MAGD

"Eight years after selling my practices, I still think of Dental Herb every single morning of my life... because there isn't a single day I don't use Tooth and Gums Tonic myself. The effects of the Tonic on periodontal health are truly dramatic. A win-win for patients and for my practice. Of course the absolute proof of my belief in this product is my continuing daily use, eight years after hanging up my drill. By using Tooth & Gums Tonic in my own mouth daily as a rinse and applied interdental, the results have been incredible. The pockets around my two molars in question have reduced from six mm to two and three mm, a single four mm and no bleeding upon probing! It has reshaped how I treat periodontal disease – not just in my own case but for my patients."

—Dr. Tom Orent, DMD

"We have had many patients using Tooth & Gum Tonic successfully for many years. All patients undergoing chemotherapy have used it and none have had problems with sores in their mouths. The oncologists have been amazed and the patients have been thankful!"

—Dr. Terri Silverman, DDS

Here's What Consumers Are Saying About Our Products

Many consumers have recently shared the impact Dental Herb Company products have made on their oral health. Read on to learn what they have to say.

.....

"Holy coooooow! I must thank you guys for getting my damaged gums back to normal! I had a cleaning done Monday (First in a VERY long time!) and I was given this bottle of "Tonic" to help strengthen my gums and fight against the crazy bacteria living in my mouth. My gums don't bleed anymore! This is a first for me in YEARS! Thank you soooooooooo much for saving my mouth from total destruction! I am a fan for life!"

—Ashley S.

"Your products are amazingly effective! The freshness lasts for hours!!!! Love it!"

—Doris S.

"I just had a dental cleaning and my hygienist told me that my teeth and gums never looked as good as they do now. I have been using these products for over a year now. Great product!!"

—Jane W.

"I just wanted to compliment your company on its fine products, especially the Tooth & Gums Tonic which I now use regularly. What an amazing product! At first I was reluctant to pay close to \$30 for mouthwash, but the product truly proves itself."

—Kat

"As a cancer patient, oral chemo is a part of my life, and mouth sores are always lurking. Since starting every morning with a mouthwash of Dental Herb Tooth & Gums Tonic, I have not had one sore, infection or even bad taste or odor. This Tonic has saved my mouth, my teeth, and my social life! I can't be without it. Thanks, Dental Herb!"

—Evalyn B.

"I've been using your Tooth & Gums Tonic for years at my dentist's suggestion. For the last couple months, I have been receiving chemotherapy to treat breast cancer and had developed mouth sores as a result. Swishing just once a day per instructions not only cleared up any existing sores but have prevented sores from recurring with subsequent treatment. That makes one less thing to worry about right now. Thank you."

—Jeanice R.

"I am amazed by the Tooth & Gums Tonic. This product is like no other mouthwash out there. Do you struggle with "morning breath" or "coffee breath?" You will struggle never again if you use this tonic. It is beyond compare."

—Rosemary R.
